# PROFESSIONAL SERVICES

## Non-Destructive Inspection Analysis service (NDT) (DOSH LICENCE/PERMIT RENEWAL for Boiler/Pressure Vessel, etc)

Our core services include Non-Destructive Testing (NDT) Analysis, Welding Inspection, Welding Services and fabrication.

Non-Destructive Testing (NDT) service is an analysis technique used in science and industry to evaluate the properties of a material, component or system without causing damage. We need to monitor and improve the reliability of our processes and equipment. It is a highly valuable technique that can save both money and time in product evaluation, troubleshooting, corrosion monitoring, and research which avoid manufacturers risk accidents.
